- Full-Stack Web Development Certificate**
CareerFoundry
2024
- Bachelor's of Fine Arts**
Concordia University Texas
2008

SUMMARY

I am a passionate software developer proficient in Javascript, Java, HTML, and CSS, with a portfolio showcasing my skills. Despite juggling a full-time job and family commitments, I have dedicated myself to crafting innovative projects. Very eager to apply my coding passion professionally.

Prior to coding, I thrived as a professional musician, working with platinum-selling artists. I honed invaluable skills that transcend industries. I can collaborate well and meet deadlines. Highly attentive and disciplined.

DEVELOPMENT PROJECTS

- Built a movie database app. Front-end uses react-bootstrap for styling and layout. Server-side uses a custom API, made with MongoDB and Mongoose.
- Created a React app which displays software development courses from all over the world. Uses content from a Google API.
- Made a mobile chat application, with React Native. Used Expo for development and testing.
- Built a simple to-do list app, using vanilla Javascript.

PROFESSIONAL EXPERIENCE

Driver October 2020 - Present
UPS, San Antonio

- Employed by UPS at multiple roles over years, currently a Full-Time Combination Driver.
- Responsible for strategically planning and managing a daily route.
- Highly reliable and punctual self starter at a demanding job. Delivers packages in high volume, safely and efficiently every day.

Professional Musician May 2008 - October 2020
Self-Employed, Austin/San Antonio

- Professional touring/recording guitarist for multiple international artists. Some include: Granger Smith, Jaci Velasquez, Todd Agnew, Kevin Max (of DC Talk), Alpha Rev, Roger Creager.
- Honed musicianship with tens of thousands of hours of diligent work. Leveraged expertise in project management and agile learning with interpersonal skills and continual collaboration.
- Proven, high level performer both in the studio and for live concerts. Thoroughly versatile in all relevant skillsets.

Creative Director of Worship and Arts April 2015 - June 2019
Community Bible Church Bulverde

- Full-time management role of a 1,200 person congregation. Gave direct oversight of 28 employees and volunteers. Managed a budget of \$126,540 annually.
- Planned and led all technical and creative aspects of weekend services. Regularly used software applications like Ableton Live and Logic Pro X.
- Met weekly deadlines, organized teams, streamlined creative solutions, and trained employees in meeting high production values.
